

NITIN MAURYA

Mobile: +91-9936241111 | Email: nitinmauryaa95@gmail.com

LinkedIn | GitHub | Codolio

EDUCATION

KIET Group of Institutions (AKTU) Bachelor of Technology (B.Tech)	Ghaziabad, India 2024 – 2028
Sri Sai Inter College Class XII (Senior Secondary) Percentage: 92.6%	Barabanki, UP 2024
St. Anthony's School Class X (Secondary) Percentage: 90.5%	Barabanki, UP 2022

TECHNICAL SKILLS

Languages: C++, Python, Java, SQL, JavaScript, TypeScript
Machine Learning: XGBoost, Random Forest, KNN, Artificial Neural Networks (ANN), Keras
Tools & Libs: Jupyter Notebook, Git, GitHub, Vue.js, Data Cleaning, Scikit-Learn
Concepts: Blockchain Technology, Cryptography, Consensus Algorithms, DSA

PROJECTS

- Uber Ride Cancellation Prediction** | *Python, XGBoost, Random Forest* [Link]
Analyzed ride request data to identify cancellation patterns. Developed a predictive model using Random Forest and XGBoost to improve operational efficiency by identifying high-risk cancellation requests.
- Customer Churn Prediction using ANN** | *Python, ANN, Deep Learning* [Link]
Built an Artificial Neural Network (ANN) to predict the likelihood of bank customers leaving credit card services. Handled data preprocessing, feature scaling, and model evaluation to achieve high accuracy.
- MNIST Digit Classification** | *Keras, Neural Networks* [Link]
Implemented a multi-layer neural network using Keras for handwritten digit classification. Optimized the training process to improve model performance on the MNIST dataset.
- Blockchain Journey & Implementation** | *Cryptography, Consensus* [Link]
Maintaining a repository documenting blockchain fundamentals, including implementation of basic cryptographic principles and decentralized consensus mechanisms.
- GRE Admission Prediction** | *Machine Learning, Regression* [Link]
Created a predictive system using ML regression techniques to estimate admission probability into graduate programs based on academic parameters.

CODING ACHIEVEMENTS

- **LeetCode:** Nitin_maurya_ — Focused on solving complex Data Structures and Algorithms problems.
- **Codeforces/CodeChef:** nitinmauryaaa — Actively participating in rated contests to refine problem-solving speed.
- **HackerRank:** Gold Badges in Problem Solving and C++ Programming.
